

EQUINOX

In the Romanian educational landscape, the National Pedagogical College "Regina Maria" Deva has an uninterrupted presence for 150 years, becoming one of the elite vocational schools in the country, which prepares students willing to become teachers or educators.

In addition to the teaching staff, with a scientific and psycho-pedagogical training at high standards, to which is added a material base and modern facilities, required by the new educational era, our school offers opportunities for students to cultivate knowledge and respect for cultural heritage, historical, scientific, national and universal: folk art and sculpture workshop, ethnography and folklore club, theater troupe, school sports association, choir, school magazine. The astrology club from our school brings together teachers and students passionate about this field, organizing thematic activities and participating in various competitions organized at the county or national level.

Our educational institution has been involved in the development of international school programs and partnerships (Comenius, Leonardo Da Vinci, Erasmus Ka1, Ka 2, Erasmus VET, Eco-Schools), being declared both a European School and an Ambassador School of the European Parliament in Romania.
